Finished Table Runner Size: 15” x 90”

Be sure to read through instructions before beginning. Cutting instructions include 1/4” seam allowance. Yardage is based on 42” of useable fabric width. All strips are cut across the width of fabric (WOF) unless otherwise stated. Press all seams as you assemble your blocks. Border lengths given are exact measurements. You may want to cut borders slightly longer to allow for variations in seams and mitering corners.

Table Runner Design by Metropolitan Quilt
Piecing Instructions:

1.) Sew the 1-1/2” x 6-3/4” sashing rectangles on two opposing sides of the center squares and press to the dark. Sew the 1-1/2” x 8-3/4” rectangles to the top and bottom sides of these same squares. Press the seams to the dark. Set aside.

2.) Sew the 1”x 6” sashing rectangles to every short angled end of the Template A cuts. Be sure to press toward the frame fabric and trim any excess. You are now ready to start the block assembly which does contain a short set-in seam. On the reverse side of each Template A shape; mark (place a dot) 1/4” in from the edge on both corners of the shorter side. This will assist in knowing where to start and stop sewing.

3.) Sew a Template A shape to every side of the sashed center squares making sure to start and stop on the marked dots. Do not press the seam.

4.) Starting at the upper left corner fold the square in half diagonally matching the 1” sashing on each short angled edge. Sew from the outer corner toward the center. Your last stitch should be at the point where your stitching started to sew the framed Template A’s to the center square. Continue this process for all four corners of the block; proceeding until all six squares have been completed. Press these sewn squares form the back first to ensure your seams are set. The blocks should lay perfectly flat. If you have a “bubble” at the set in seam now is the time to make adjustments before your table runner is assembled. It may be as simple as removing a stitch to allow the block to lay flat.

Quilt Assembly:

On the right edge of each block sew the 1-1/2” sashing and trim flush. Press to the dark. Take the first and second squares with right sides together and sew along the seam. Press to the dark, continuing to add squares as shown in the picture. Add a final 1-1/2” sashing strip to the short left edge of the first block.

Now join (3) 1-1/2” sashing strips together for each long side of the table runner. Sew, trim, and press well.

Binding is a single fold with wrong sides together. Once the project is quilted; sew the binding to the front edge and hand-stitch to the back.
